People Tell Our Product & Business Opportunity Stories Best!

There's nothing more exciting than listening to the amazing testimonials of Diamite distributors and customers. Sharing these inspirational stories with people all over North America has helped spread the word about Diamite! Be sure to share these motivational stories with everyone you know!

A Dream of Luxury Cars Brought to Life!

"These cars were only in our dreams when we started this business two and a half years ago. We thought that attaining something like this would be a longshot; only something that we could obtain if money wasn't an object. Today, we're proud to say that each of us owns a brand new Lexus! It took daily reminders of this goal and really believing in Diamite's opportunity to help us achieve this. But helping people really motivated us to work harder. Just remember, with Diamite, dreams really do come true!"

A Diamite Difference!

"Being on Diamite's Simply Perfect Diet Plan helped me lose 20 pounds and better my health! For the first time in my life, I was overweight and I was miserable. I was short of breath, my joints ached and at 4'11-1/2," 126 pounds was too much for my small frame. I started the diet plan to lose weight before my wedding because I was desperate to fit into my gown. By adding exercise and eating a low-fat diet, in two months I lost weight! Diamite's products have also helped me maintain this lower weight!"

Staying Healthy on the Inside and Out!

"We both have very active lifestyles and in addition to keeping healthy through Diamite's nutritional products, we also depend on DEJA VU® products to maintain a healthy look. I'm always doing outside activities and because my skin is exposed to the elements, it can easily be robbed of moisture. Brent's extensive traveling can have the same effect, but DEJA VU®'s Facial and Body Care Systems keep our skin moisturized and vibrant. As a result, our skin has a healthy glow and people notice!"
